In *Aijou no Iro* chapter 1, the black-haired boy's name was specified as "Chiya". However, it turns out it was "Tomoyo". It's hard to figure out the names of these characters because they do not give a pronunciation for the names and you are left guessing. Sometimes, you then find out that your guess was wrong later on in the manga when they give you a better hint. We apologize for this error and hope it doesn't get too confusing.
